CHAIRPERSON'S REPORT

This has been another incredibly successful year for Heifer international South Africa (Heifer). During 2014, Heifer has continued to build on its three core strategies of Scaling up, Resource Diversification and Strengthening Global Systems.

Heifer's scaling up has reached new levels with the first successful year of the 2100 families in the Blouberg Project coming to an end. The successes of the Blouberg Project will now be carried across to the Jozini Project in KwaZulu-Natal, where 2500 families will work with Heifer to end hunger and poverty in their communities, come March 2015.

Heifer has continued to explore new funding avenues as well through increased grant, corporate and individual donations - with the most exciting being Expedition 720° in which Angelo Wilkie-Page will raise funds for Heifer by breaking the World Record for fastest circumnavigation of the globe while focusing on a fundraising goal of 1 million USD for our mission.

Heifer staff realise the importance of building their own capacity within the organisation, in an effort to better serve the communities in which we work. Hence, the Heifer staff have spent the past year on several learning exchanges within the global Heifer International community - studying best practice models from other Heifer projects and partner organisations and incorporating new Heifer systems into Heifer's own work.

Heifer International South Africa continues to be successful in helping end hunger and poverty for the most vulnerable South African families because of the amazing funding partners, staff interns and volunteers who are so deeply committed to our goals and the mission and vision we all share.

Angela Lasiter
Heifer International South Africa
Board Chair

TOGETHER
WE HAVE POWER OVER
HUNGER AND POVERTY

Above: Angela Lasiter

CEO'S REPORT

As Heifer International celebrated its 70th birthday this year, it gave us at Heifer International South Africa (Heifer) pause to reflect on how far we had come as an organisation both globally and locally, the challenges we had faced and the successes we had achieved in moving towards our mission of ending hunger and poverty in South Africa and caring for the earth.

Since 1944, the total number of families assisted globally, directly and indirectly, is almost 20.7 million – more than 105.1 million people. Whilst the last 70 years have allowed us to gain incredible experience combating hunger and poverty through livestock and agricultural interventions, we are still continuously learning new ways of working with rural communities and always mindful of those communities' ever changing needs.

With the Millennium Development Goals nearing an end and with roughly 12 million South Africans still suffering from food insecurity, this has highlighted an even greater need for larger scale impact in these communities.

Hence, 2015 will see even greater change and impact. We are launching a 10 year programme focusing on the goat value chain with our sister countries, Zimbabwe, Malawi and Zambia. Our aim will be to work collaboratively with partners at all levels to sustainably lift 87,500 rural, small holder farmers in South Africa out of poverty by supporting the growth of goat production enterprises in the smallholder goat farming sector.

None of this work would be possible without the dedication of the thousands of small holder farmers with whom we work and our loyal supporters, board members, staff and partners.

Marisia Geraci
Chief Executive Officer
Heifer International South Africa

NOW
we have a voice

CREATING CHANGE

For close to 15 years, Heifer International South Africa has been empowering people to change their lives.

MISSION

The mission of Heifer International South Africa is to work with communities to end hunger and poverty in South Africa and to care for the Earth.

VISION

Heifer International South Africa (Heifer), in partnership with others, is transforming communities, achieving sustainable community development, improving the livelihoods of thousands of families and caring for the Earth through extensive training, crop production and the provision of livestock.

STRATEGIC PRIORITIES

Scaling up programmes, Resource Diversification and Strengthening Global Systems.

HISTORY

Heifer International began exploring the possibility of working in South Africa in 1995, soon after the end of Apartheid. After research and several successful pilot projects, Heifer International South Africa was registered in 2000. Heifer International South Africa is a non-profit

organisation and a public benefit organisation under South Africa law. Since 2000, Heifer has worked in partnership with over 5000 families in three provinces – KwaZulu-Natal Province, Eastern Cape Province and Limpopo Province – providing rural farmers with the knowledge, skills and resources needed to develop their farms into sustainable small businesses capable of feeding and supporting their communities. As well as training and on-going support, Heifer International South Africa provides limited agricultural inputs such as livestock, seedlings and trees to the most vulnerable households. In addition, each recipient agrees to pass on the equivalent of what he or she receives to another poor family – Passing on the Gift®. Through this simple concept, more and more families are achieving self-reliance through successful small farming.

BIG CHANGES START SMALL

As the Spanish Civil War drew to a close, an American relief worker, Dan West, found himself forced to decide which poor refugee children would get the meagre cups of milk he was handing out. Realising that this kind of aid could never be enough, he started an organisation dedicated to giving poor families livestock so that they could feed their own children, instead of relying on hand-outs – a cow instead of a cup. The first shipment of cows was sent from the US to Puerto Rico in 1944. Now, nearly 70 years later, Heifer is still helping poor families to become small farmers so that they can feed and support their families. Heifer has assisted more than 20.7 million families in over 126 countries, including 5000 in South Africa.

GOAL: IMPROVED GLOBAL SUSTAINABLE LIVELIHOODS

Increase in
Income &
Assets

Food
Security &
Nutrition

Environment

Women
Empowerment

Social
Capital

EVERYTHING STARTS WITH A DESIRE FOR A
BETTER LIFE AND A BETTER WORLD.

ENDING HUNGER AND POVERTY

Our work starts with you. It ends in a world without
hunger & poverty.

THE HEIFER WAY

We believe all people deserve dignity, opportunity, and a future free from hunger. We believe we provide the tools of transformation to bring about that opportunity. We believe one cow can transform a life. But we know one animal alone doesn't lead to sustainable change. We believe in equipping our people with the tools, education and livestock to bring about positive transformation. Together, through every small step forward, we're transforming the world for the better. That's real impact.

THAT IS THE POWER OVER POVERTY.

PASSING ON THE GIFT®

At our heart lies Passing on the Gift®. The nature of our work allows families to become the cycle of positive change; those who received Heifer gifts become donors and Pass on the Gift of possibilities and shared successes to others in the community.

HOW IT WORKS

After a Heifer project is established, families that received resources from Heifer—such as livestock, seeds or training—pass on these gifts to other families in need in their community, allowing them to help others as they have been helped. So, a family that receives a goat will Pass on the first offspring or kid of that goat to another family in need.

TOOLS OF TRANSFORMATION

We're just the catalyst. Sharing these tools gives people the skills and resources they need to expand their options for their future and the 12 Cornerstones for Just and Sustainable Development create the spark people need to take their family farm and transform it into a family business.

SIMPLE TOOLS. PROFOUND RESULTS.

PHUHLISANANI PROJECT

SUMMARY

The Phuhllisanani Project is located near the town of Alice in the Nkonkobe Local Municipality, Amatole District, Eastern Cape Province. The project started in July 2012 with 402 members. All project participants have been equipped with appropriate knowledge and skills for sustainable development. All members have been trained in vegetable production, livestock management, HIV, basic business skills and Heifer's Cornerstones.

During this past year, 402 families are currently eating vegetables from their home gardens and 312 POG group have started with home based gardening. 13 mini-nurseries have been constructed and on average 3 types of seedlings are produced per mini-nursery every month. 5 mini-nurseries for the POG group have been constructed and completed.

Heifer is currently constructing a mini-hub with an agro-store and market-place, providing the farmers with infrastructure linked to vegetable production and access to formal markets.

STATS

- Original Project families **402**
- Female Project members **286**
- Male Project members **116**
- POG Project families **327**
- Male POG Project members **96**
- Female POG Project members **231**

- Total target number of people to benefit from the project **4415**

This project is supported by:

- UKAid (UK Department For International Development)
- National Lotteries Board
- WesBank Fund

“

I am planning to use the livestock to make my life and my parents' life better. I hope I will be able to show other youth in my area that as youth not employed we can make a living out of raising livestock and make an income to live a better life. **Mhlangabeza Vuyolwethu (29)**

START A CYCLE OF **HELPING OTHERS** AND GROW
THE **SPIRIT OF GIVING** EXPONENTIALLY.

SUKUMA POULTRY PROJECT

SUMMARY

The Sukuma Poultry Project is located Port Shepstone in KwaZulu-Natal Province, South Africa. The project began in 2011 with 172 members. Currently, 5160 Boschveld indigenous chickens have been distributed at the point of laying to 172 families with each family receiving 30 chickens and have received vegetables and fruit tree seedlings. 516 POG members have completed Heifer trainings and 785 chickens have been passed on. Further POGs will take place during the course of the year.

320 project members have home based vegetable gardens using chicken manure and composting techniques for their gardens. Project members are using water conservation techniques such as mulching to conserve water in the soil and water harvesting from roofs for use in the vegetable gardens.

STATS

- Original Project families **172**
- Female Project members **170**
- Male Project members **2**
- POG Project families **516**
- Male POG project families **107**
- Female POG project families **409**

- Total target number of people to benefit from the project **3440**

This project is supported by:

- Heifer International
- WesBank Fund

“

Now I am able to plant my own vegetables because Heifer has trained me. My family is enjoying fresh vegetables from my garden. I would like to say thank you very much. Heifer must keep on doing good work and help other needy communities. **Mrs S bongile Miya (56)**

ZUSIPHE PROJECT

SUMMARY

Zusiphe Goat Project is located near Nkandla in the KwaZulu- Natal Province. It began in February 2012 with 104 project members.

During the first few month of the project, project members were equipped with appropriate knowledge, skills for sustainable development and trainings. All 104 original project members have received goats and vegetables and fruit tree seedlings

Kidding by goats provided is progressing nicely and forty (40) goats have been passed-on thus far. Further POGs are expected to commence during the course of next year.

Two hundred and eight (208) members have active vegetable gardens and growing a variety (5-7types) of healthy vegetables in their gardens for home consumption.

The project has one active mini-nursery which has produced two thousand (2000) seedlings. Heifer International South Africa has secured funding to introduce a mini-hub with an agro-store and market-place. The Zusiphe mini-hub will initially focus on vegetable production and marketing.

STATS

- Original Project families **104**
- Female Project members **90**
- Male Project members **14**
- POG Project families **104**
- Male POG project families **17**
- Female POG project families **87**

- Total target number of people to benefit from the project **1040**

A lot has change because we are being empowered by Heifer, now we know that we can not stave while we have all the knowledge and skills that we have acquired. We know have our own vegetables garden, where we get fresh vegetables. Ms Baduvile Sbongile Sikhakhane (59 years)

THUSANANG DAIRY PROJECT

SUMMARY

The Thusanang Dairy Project began in January 2013. The project aims to assist 600 families in the Matatiele area of the Eastern Cape to become successful, small-scale dairy producers. During the first few months of the project, project members were trained in Heifer Cornerstones, vegetable production, livestock management, HIV, basic financial management, agro-ecological practices, leadership, farm record keeping and gender awareness. Vegetable seedlings were also distributed to project families to begin vegetable gardens. Project families have now planted fodder and are caring for their cows. Project families are now working towards building sustainable dairy businesses in the Matatiele area.

“

I would like to thank Heifer for the change brought on by applying [Heifer's] Cornerstones, now that the project has started.

BLOUBERG PROJECT

SUMMARY

Blouberg Integrated Food Security and Household Farming Project was started in October 2013, and it aims to improve the food security and income security of 2100 families in Blouberg Local Municipality, Capricorn District, Limpopo Province, South Africa through capacity building, the development of household vegetable gardens, including fruit trees, and the development of household small livestock farming activities, using chickens, goats, sheep, pigs and bees. During the first few months of the project, there has been a series of workshops, and trainings, namely Heifer Cornerstones, leadership and vegetable production. The project was also visited by a team of PepsiCorps volunteers who facilitated month long workshops on the development of the Farmers Business Association, Community Animal Health Workers and basic beekeeping management.

STATS

Original Project families **700**
Female Project members **231**
Male Project members **469**

- Total target number of people to benefit from the project **10500**

CHILDREN CHANGING THE WORLD

“

Children are the world's most valuable resource and its best hope for the future. – **John Fitzgerald Kennedy**

Read
to
Feed®

HOW READ TO FEED WORKS:

1. READ

Read to Feed encourages a love for reading. Through Read to Feed, students are inspired to read books for the sheer joy and pleasure of reading. The more they read, the more they learn about the amazing worlds reading can open up for them and the more they help those less privileged than themselves.

2. LEARN

Through Read to Feed, children have the opportunity to learn about hunger and poverty in South Africa and beyond, and to discover how Heifer's work can solve this problem. Most important, children learn that their small actions, like reading a book, can change the world for the better. They will discover that every little donation makes a difference in someone's life.

3. END HUNGER

For every book they read, children collect small sponsorships. The funds they raise help Heifer International South Africa assist thousands of rural people to grow healthy food for their families to eat and to sell by providing seeds, trees, livestock and intensive training and support.

SUPERHERO

Sherize Liebenberg went on a crusade of her own to raise her money – she visited a number of shops and businesses in a Durban North shopping Centre and she told them about Read to Feed®, and how desperately those rural people need us to help them.

“

Read to Feed is more than a reading programme, it is also an opportunity for children to change the world.- **Archbishop Emeritus Desmond Tutu**

Photo bottom right:
Ms Philippa Greenwood

VOLUNTEERING

As a volunteer you share in Heifer's mission. Volunteers educate people about hunger and poverty and provide support to the organization. There are many ways to utilize your talents and skills.

READ TO FEED VOLUNTEER

Partner with a school to implement Heifer's Read to Feed programme and help children change the world by reading books to raise funds and support Heifer's work.

PERSON TO PERSON VOLUNTEER

Join a team of volunteers visiting events and public places to tell others about world hunger and the Heifer way.

COMMUNITY VOLUNTEER

Volunteer where you are. Take the time to tell others around you, in your suburb, at your workplace, in your circle of friends and acquaintances or at your church, club or community group about the problem of hunger and poverty and how they can help. Community volunteers can also set up local fundraising activities to support Heifer's mission.

TEAM HEIFER

Take up the challenge with Team Heifer! Run a marathon, cycle in a race, give up chocolate for a month or collect five cents from everyone you know. Choose your challenge, set your target, recruit your family and friends to join your team, raise money and support Heifer's mission.

**FOR MORE INFORMATION ABOUT OUR VOLUNTEER PROGRAMME
VISIT OUR WEBSITE WWW.HEIFER.ORG.ZA**

EXPLORE THE POSSIBILITIES. CREATE A SPARK.

PRIVATE + PUBLIC = IMPACT

The private sector is a powerful engine for economic growth. Through trade, manufacturing, investment and technology, corporations provide opportunities for millions of people in low-income countries to lift themselves out of poverty.

Heifer International South Africa works closely with corporate partners to raise awareness, to develop new market opportunities for smallholder farmers and to raise funds in order to reach more families across South Africa and the rest of the continent.

CORPORATE PARTNERS 2012 - 2013

WesBank Fund has been a Heifer supporter for many years. They currently support food gardening in three Heifer International South Africa projects, assisting more than 500 families to achieve food security and begin to earn income through farming.

Mutual and Federal Community Trust supports the Thusanang Project, an exciting dairy project that began this year in the Eastern Cape. Through this project, 600 poor families will become successful small-scale dairy producers.

Spur Foundation partnered with Heifer International South Africa in 2013 to provide financial support towards a new project in the Limpopo Province. Spur volunteers also visited the Zusiphe Project on Mandela Day and helped to plant trees and distribute goats.

DOW Chemicals has supported Heifer's work in KwaZulu-Natal for many years. This year, their support provided goats to more than 30 poor, rural families. Employees of DOW Chemicals also visited the project to help distribute the goats they had sponsored.

**MAKE AN INVESTMENT TO END HUNGER
AND POVERTY.**
